Early Career Researchers presenting their cutting-edge work

Posters @ The Hub '24

7th March 2024
11:00 – 14:00

The Knight Studio, Adastral Park

The Tommy Flowers Network

Darja Wischerath
Conspiracy Theories and Incitement on Telegram
Approaches to Threat Detection

Liam Bussey
Atom Based RF Sensing for Metrology, Communications,
Imaging and Location Tracking

Anya Petyaeva
The role of an inclusive design approach in the design of new
digital interfaces for workforces of a large organisation

Akanksha Ahuja
Automating Network Growth
Graph Machine Learning Approaches to Fribre Expansion

Shima Yekkehbashheidari
The implications of Immersive Technologies in field-based
service operations management: a systematic literature review

---

Safwana Haque
Multi-Layered Attack Detection in Home IoT Networks

Dave Townend
Wireless Fronthaul for Centralised Mobile Network
Deployments

Richard Willis
Social dilemmas under reward transfers

Theo Crookes	
Triggered Bandits within Streaming Data Settings	

Theo Crookes
Triggered Bandits within Streaming Data Settings

Ziyang Yang
More Than Changepoint Detection: Detecting Changes with Uncertainty
A real time Bayesian Changepoint Detection Method

Saad Zia
Physics Informed Modles for Self Adaptive Digital Twins

Salman Ahmed
An evaluation of BERT applied for AIOps

Frank Calver
When Free is not FREE - Why your easy website is helping to damage the planet

Sian Cook
"It didn't feel like I was talking to a human." Bereaved peoples' experiences using digital technologies, including text-based counselling, to support the grieving process

Anton Tischenko
Shared Aperture HMIMOS and RIS for mmWave Integrated Sensing and communication

Yolanda Achlada
Strategic Entrepreneurship in large, well-established organisations
